

« We chose TraceParts as our standard hardware solution due to the ease of use of the user interface & TraceParts' willingness to customize their solution to our CAD & PDM design environment. It allows our Engineers to select Military, Industry and Commercial Off the shelf Aerospace approved hardware rapidly & to concentrate on adding value to our company's products »

Kevin O'Brien, Specifications & Standard Parts Manager at Northrop-Grumman Advanced Early Warning & Electronic Warfare Integrated Systems Sector

TraceParts contains more than 100 million CAD drawings from all the leading Parts Suppliers, including:

Advantech, Asco Numatics, Assfalg, Atlanta, AVIT, Bosch Rexroth, Boutet, Burster, CCB, Cepex, CGI, Chambrelan, Contrinex, CSR, Decril, Dinel, Dirak, Drumag, Eichenberger, Elitec, Enomax, Enzfelder, Euchner, Expert, Facom, Festo, Finsterle, FLI, Ganter, Genustech, Gerwah, GGB, GHV, GMT, Grip, Halder, HEB, Hervieu, Himmel, HP Systems, Hydropa, IFM, Igus, INA/FAG, Item, ITV, Joyner, Kabelschlepp, Kinetic, Knörzer, Kremp, KV Automation, La Clusienne-Clufix, Legrand, Legris, L'Etoile, Mädler,

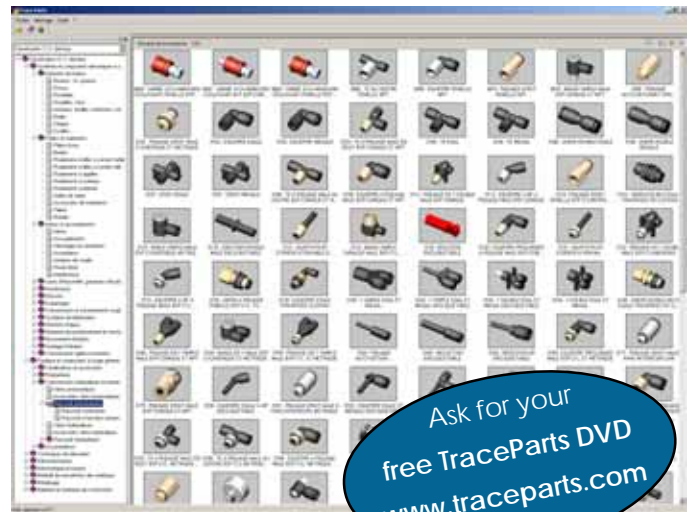

Mayr, Mecalectro, MiniTec, Misumi, Nadella, Nilos-Ring, Norelem, Norgren, Normydro, Nozag, Pinet, Progressus, Quiri, Rabourdin, Ringfeder, Ringspann, Ritz, Rodriguez, Römheld, Rötelnmann, Rud, Sapelem, Sarel, Schmalz, Schmersal, Schweizer, Sherex, Siam-Ringspann, Sick, SIT, SNR, Socaf fluid, Somex, Stauffenberg, Ströter, Stüwe, Suhner, Sumer, TAT, T.E.A., Techné, Telemecanique, Thoptec, TME, Trelleborg, Vishay, Vogel, Wasi, Wefapress, Winkel, Zimm, ...

### Native CAD formats

#### Unlimited compatibility

Data created using TraceParts provide multi-CAD compatible models that can be integrated into most of the CAD systems available in the world. For more than 10 years, TraceParts has been partnering directly with all the leading CAD vendors. This ensures compatibility with the relevant latest versions and closer relationships with their R&D and marketing departments.

TraceParts is for instance the first and still only **CATIA CAA V5 Software Partner** of Dassault Systemes in the field of Parts Libraries (more information about this partnership can be found on [3ds.com](http://3ds.com))

TraceParts has direct and long term partnerships with all the leading CAD & PLM vendors:
